

My name is A. Marthe Ranjani. I came to Sri Kanyakumari Gurukula Ashram as a three months old baby and now I am 31 years old. I completed my school education in one of the reputed institutions in the city. I did my Masters in Engineering [Information Technology], with first class and distinction. After completing my college education, I worked as a "System Manager" for 6 months and worked as PRO in Chennai for two years. After that I resigned from my job and came back to Ashram in the year 2017, to do social service in the Ashram. I did Post Graduate Diploma in Psychological Counselling and currently working as Psychological Counsellor in our Ashram. I got married in the year 2019 and continuing my service in the Ashram. I am blessed to be a part of this Ashram in doing social service. Only because of the support, love and care that I received from the Ashram made my life beautiful and successful. God has allowed me to do service for Ashram. I am blessed. I could not even imagine what my life would have been like if I had not come to this ashram. I will continue my service for the rest of my life. God should give me the physical and mental strength to continue this service.
